	Map Index #

Project:
Indian Lake Estates Water Main Distribution System

Title: GPS Utility Map

Prepared For:
Indian Lake Estates - HOA
Transylvania County
Lake Toxaway, NC

Drawn by: CHD, June 2022

ARCH E SHEET SIZE (36-in by 48-in)
Approximate Scale: 1-inch = 80-feet
Ratio 1:1000

- Notes:
1. Aerial Imagery, Parcel Data, and Elevation Data Obtained from NC-One Map: <http://data.nconemap.gov/geoportals/catalog/main/home.page>.
 2. GPS Data Collected with EOS Arrow 100; meter-scale accuracy.
 3. This map is not a substitute for a surveyed drawing.
 4. Feature symbol size exaggerated for display.
 5. Elevation Contour Interval = 50-feet.
 6. Water Line Location determined using Ground Penetrating Radar (GPR). Utility markings made by interpreting most likely GPR signals.
 7. Inferred Water Line marks made because other unknowns detected in close proximity, and/or public utilities not marked prior to GPR data collection/field interpretations. These locations marked based on assumptions - not supported with locating equipment or direct observation.
 8. Visual Water Main Observations made where actual pipe was exposed, or where utility was damaged and repaired during directional boring activities.
 9. Unknown lines were marked in areas where GPR consistently detected using GPR, and may be alternative location for water main, or abandoned water main.

NOT A SURVEYED DRAWING
